

SEASHORE BY AROMA RETAIL

A natural summer seashore where the fresh salt air of the sea meets coastal vegetation of wild greens with light floral and citrusy notes, along with a hint of un-ripened coconut. Other elements that help make up this unique scent include peach, orange, lime, violet, cyclamen, jasmine, musk, and vanilla.

A shore or a shoreline is the fringe of land at the edge of a large body of water, such as an ocean, sea, or lake. In physical oceanography, a shore is the wider fringe that is geologically modified by the action of the body of water past and present, while the beach is at the edge of the shore, representing the intertidal zone where there is one.
