

# MATCHAjuana

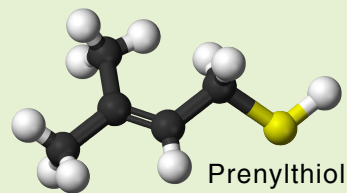

*MatchaJuana* is a Scented Marijuana Neutralizer that uses natural scent molecules from ground green tea that are attracted to the molecules that give marijuana that skunky weed smell.

*How it works?* When ground green tea leaves, otherwise known as Matcha Tea, is exposed to sunlight, it releases marijuana odor neutralizing scent molecules that are attracted to the radical sulfur-hydrogen atom of Prenylthiol, which is the molecule responsible for the skunky odor of marijuana. These molecules then combine into a more pleasant scent. Without the marijuana smell present, MatchaJuana smells like freshly crushed green tea leaves. Once it combines with the marijuana smell, it neutralizes into the smell of freshly brewed Matcha tea.

Top Notes: Citrus Zest, Green Apple, Fresh Ozone  
 Middle Notes: Matcha Powder, Star Jasmine, Green Tea  
 Base Notes: Fresh Herbs, White Woods, Soft Musk

**Canna-Less - Marijuana Abatement Fragrances**  
 Our certified marijuana abatement fragrances contain natural scent molecules that are attracted to the radical sulfur hydrogen compound found at the end of the Prenylthiol molecule. You can tell it works, because it actually changes the way the fragrance smells rather than just covering up marijuana scent with a more powerful smell.
